

SAMSUNG

Introducing the Galaxy A70

The Samsung Galaxy A series has everything you want in a smartphone, like high-capacity, fast-charging batteries,¹ multilens cameras and Infinity Displays—at the incredible value you deserve. And, because the all-new Galaxy A series is designed by a brand you trust, you know these phones are reliable and made to last. Choose the Galaxy A that's right for you.

Go all day...then keep going.

Go longer than ever with an all-day battery,² and power up quickly with Super Fast Charging.

The camera for any shot

Capture images in their entirety, shoot vibrant low-light photos, and take flattering selfies.

Upgrade your screen

Featuring a prodigious 6.7" Super AMOLED screen,³ the slimly designed Galaxy A70 fits easily into your hand.

Don't worry, keep it all.

Store it all with 128GB of built-in memory. Expand your memory up to 512GB with a microSD card.⁴

Get the perfect shot every time

Flaw Detection automatically alerts you when your photo isn't picture-perfect, so you never lose a moment.

Stunning photos, day or night

Take stunning low light photos, so your images turn out sharp and ready for sharing, day or night.
