

SAMSUNG

Introducing the Galaxy Note9

All-day battery

The largest battery in a Note, ever. When you have a long-lasting battery, you really can go all day and all night.¹

Faster

The Samsung Galaxy Note9 gives you a quick network connection for incredibly fast streaming and downloading, so you can do more, uninterrupted.²

Mightier

Still amazing on screen, but now the S Pen has more power off screen. Remotely control different applications and use the S Pen to capture shots from far away, scroll, play music, and stop/start recording video.

Timeless

The revolutionary Dual Aperture lens that self-adapts between $f/1.5$ and $f/2.4$ apertures depending on available light, so you get beautiful photos in any light.³

Brilliant

At 6.4", the Galaxy Note9 has the largest screen of any Galaxy phone. Perfect for gaming and streaming, our Super AMOLED display is bigger than ever before.

SAMSUNG

Display

6.4" Curved Super AMOLED⁴
2960 x 1440

Processor
