Galaxy S8 | S8+

Introducing the Galaxy S8 | S8+

It unlocks with a look, communicates with you, connects to your home and can pretty much take you anywhere with Gear VR.¹ And meet Bixby, the assistant that learns from you to help you do more.

A screen without limits.

The Galaxy S8 has the world's first Infinity Screen. The expansive display stretches from edge to edge, giving you the most amount of screen in the least amount of space. And the Galaxy S8+ is even more expansive—our biggest screen.²

Meet Bixby.

Bixby is an intelligent interface that learns from you to help you do more. It learns your routines to serve up the right content and apps at the right time, keeps track of your to-do list, and gives you a deeper understanding of what you are looking at.

Our best camera, now even smarter.

Take clearer, sharper, more detailed selfies with our best camera yet. Take brilliant photos in any light with dual-pixel technology.

Look at your world in a new way.

Bixby lives inside your Camera, Gallery and Internet to give you a deeper understanding of what you're looking at. Just tap the Vision icon in your viewfinder and Bixby will serve up contextual icons: translation, QR code detection, landmark recognition and shopping.

A phone that can take you anywhere.

Place your Galaxy S8 into the Gear VR headset¹ to explore multi-dimensional worlds in virtual reality. Travel the planet, play games and watch content with organic, intuitive responses through the in-hand controller.

A phone that unlocks with a look.

Now security is personal. With facial recognition, the Galaxy S8 easily unlocks with a look.

A phone that can handle a splash.

With an IP68 water resistant rating, the Galaxy S8 can resist a splash or accidental dunk.³

A phone with room to grow.

Expand your storage up to 256GB with a microSD card⁴ that makes room for the things that matter most.

Put home in the palm of your hand.

Control hundreds of devices and appliances—whether you're at home or out of the house. Turn on the lights, preheat the oven and even see what's in your fridge, all from your phone.⁵

Technical Specifications

Dimensions

2.68" x 5.86"
2.89" x 6.28"

Display

5.8"/6.2" (full rectangle)⁶
5.6"/6.1" (rounded corners)⁶
